## We're Proud to Sponsor Adaptive Golf

Joye Law Firm was proud to sponsor Carolina Adaptive Golf's Myrtle Beach Captain's Choice Tournament on February 24, 2024. Funds raised at the tournament will go towards the youth skill program and the purchase of a VertaCat, a device that helps mobility challenged individuals play golf.

Click below to learn more about this incredible event and how Joye Law Firm supports initiatives that promote inclusivity.

## Tips for Driving in Rainy Weather

South Carolina's subtropical climate means we enjoy lots of sunshine, but it also brings unpredictable weather—especially during spring. Rainy conditions are especially dangerous, increasing the risk of car accidents by limiting visibility while creating slick roads.

When driving in the rain, drivers must be extra cautious to protect themselves and their passengers. Below, we share our guidance for navigating safely through wet weather.

## What Is Maximum Medical Improvement in Workers' Comp?

Maximum Medical Improvement (MMI) is an important term in workers' compensation cases, indicating when an injured worker's condition has stabilized to the point that no significant improvement is expected—even with further medical treatment. The determination of MMI is made by a doctor and can influence the below elements of a workers' comp case:

- **Return-to-Work Timeframes:** MMI determines your readiness to return to work while aiming to avoid aggravation of your injury. Your doctor will outline when you might return, possibly allowing for light duties earlier than full recovery.
- **Workplace Accommodations:** Your MMI assessment informs necessary workplace modifications or aids to accommodate any physical limitations.
- **Vocational Rehabilitation:** If you can't return to your previous job due to injury, workers' comp may help you train for a new role that fits your abilities.
- **Wage Replacement:** In South Carolina, you receive two-thirds of your average weekly wage during recovery, influenced by your MMI duration.

Returning to work before reaching MMI risks your health and benefits. So, if you've been hurt on the job, consult a workers' comp attorney from Jays Law Firm to ensure you're not returning to work too early and that your rights and health are fully protected. We've been fighting for injured workers in South Carolina since 1988.

## Stay Safe During Spring Break

More than 14 million tourists a year visit Myrtle Beach, and many make their trip during Spring Break. This much-needed period of rest, typically occurring in March or April for students, is a time to make lasting memories. But it's crucial to prioritize safety to ensure those memories are

Joyful rather than regrettable.

So, whether you're heading to Myrtle Beach or another destination, check out our blog post for tips on how to protect yourself and your loved ones this Spring Break.
